

Adrien CHARDON

I am a French engineer, freshly graduated, fascinated by computer science and electronics. I am looking for an internship or first permanent job starting in April 2019. I can relocate anywhere on Earth, but Europe is preferred.

Professional objective: software development or electronic design for space applications (launchers, satellites, spacecrafts, etc).

French nationality

Education

Degrees

- 2018 - 2019 **Advanced Master**, *TAS Astro: space systems design.*
Pending ISAE-Supaero - Toulouse, France
- 2013 - 2018 **Engineering Degree**, *Majoring in embedded systems.*
ECE Paris - Paris, France
- 2015 - 2016 **Bachelor of Science**, *Electronics & IT.*
Aalborg University, electronics department - Aalborg, Denmark

Languages

- French **Mother tongue.**
- English **Fluent**, *TOEIC: scored 935/990 in 2017.*

Work Experiences

Employment Experience

- March to August 2018
Internship
COMMUNICATION & SYSTÈMES
- Designed and deployed a system to automate the deployment of virtualized applications and execution of tests (units, integration, etc).
 - *Skills: system administration (Linux Centos), Docker, Kubernetes, monitoring (Prometheus, Grafana), Ansible, Git.*
- May to August 2017
Internship
FUTURE ELECTRONICS
- Adapted the Mbed-os framework for the new PSoC 6 microcontroller from Cypress. Implemented several peripherals such as GPIO, UART, Timer and Bluetooth BLE.
 - *Skills: C, ARM microcontroller, Git.*

Student Projects and Volunteering

- 2017-2018
Project leader
ECE3SAT
- Designed and built, with 25 students, a nano satellite in order to study a new de-orbit technique. In charge of the team responsible for the satellite architecture and the on-board computer.
 - *Skills: distributed architecture design, sizing and microcontrollers choice, team management.*
- 2016-2017
President
iTEAM
- President of the association at ECE promoting computer science and free software. Coordinated the organization of events and conferences for the students.
 - *Skills: team work and association management.*
- 2016-2017
Student project
GALI X
- Designed and built an autonomous robot for the French Robotic cup. In charge of programming: designed a distributed architecture to allow easier reuse for the next robots.
 - *Skills: C++, Git, ARM µcontrollers, distributed architecture, CAN bus.*

Hobbies

- Personal projects Computer science, robotics, model airplanes
- Space simulation Kerbal Space Program
